Report on the Financial Statements

We have audited the accompanying financial statements of Via Care Community Health Center (a nonprofit corporation) (the Organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Via Care Community Health Center, as of June 30, 2021, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, is also presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2022, on our consideration of Via Care Community Health Center's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of Via Care Community Health Center's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Via Care Community Health Center's internal control over financial reporting and compliance.

NOTE 1 NATURE OF ACTIVITIES

Organization

Via Care Community Health Center (Via Care or the Organization) is a nonprofit Federally Qualified Health Center formed to provide exceptional health care to patients in its service and throughout their lives. As a community-based organization, Via Care fulfills its mission by delivering quality health care services throughout the entire life cycle, in a manner that is respectful and conscious of the cultural and linguistic needs of their patients.

Via Care builds on a foundation of empowering patients to take control of their health and lives, offering extensive family planning, health screening, and health education in addition to primary medical and dental care. Behavioral health services additionally provide confidential, accessible counseling and support that mitigates the stigma usually associated with seeking mental health treatment. Collaborative relationships with local hospitals ensure that patients will receive coherent care in all situations.

Headquartered in East Los Angeles, Via Care presently operates twelve primary-care clinics, school-based wellness centers at Garfield High School, East Los Angeles College, and Los Angeles Technical College and Behavioral & Dental Health offices. Via Care is moving toward creating a patient-centered medical home model of care, which would ease families out of crisis mode and into the routine maintenance of good health throughout their lives.

The Organization's sources of revenues include payments from other service providers, government and foundation grants, patient donations, and payments for services.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Net assets and revenues, expenses, gains, and losses are classified based upon the existence or absence of donor-imposed restrictions. Accordingly, the net assets of the Organization are reported in each of the following two classes: net assets without donor restrictions and net assets with donor restrictions.

Net Assets Without Donor Restrictions – Include net assets available for use in general operations and not subject to donor (or certain grantor) restrictions. At times, the governing board can designate, from net assets without donor restrictions, net assets for a board-designated endowment or other purposes. At June 30, 2021, the governing board has not designated any net assets.

Net Assets With Donor Restrictions – Include net assets subject to donor-imposed restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. At June 30, 2021, there were no donor-imposed restrictions that were perpetual in nature. Donor-imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource has been fulfilled, or both.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

Revenues are reported as increases in net assets without donor restrictions, unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions, unless their use is restricted by explicit donor restriction or by law. Expirations of temporary restrictions on assets are reported as transfers between the applicable classes of net assets. Contributions with externally imposed restrictions that are met in the same year as received are reported as revenues of the unrestricted net asset classes.

Method of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Accrual accounting requires the recognition of revenues when they are earned and measurable in the accounting period which services are provided, and the recognition of expenses in the period in which they occur.

<u>Cash</u>

Via Care considers all highly liquid investments, except those restricted or designated, with an original maturity of three months or less when purchased to be cash. At times, deposits may be in excess of Federal Deposit Insurance Corporation insurance limits.

Concentration of Credit Risks

The primary receivable balance outstanding at June 30, 2021 consists of government contract receivables due from county, state, and federal granting agencies. Concentration of credit risks with respect to trade receivables are limited, as the majority of Via Care's receivables consist of earned fees from contract programs granted by governmental agencies.

<u>Inventory</u>

Via Care maintains an inventory of medications for patients. This inventory is stated at the lower of cost (first-in, first out) or net realizable value.

Property and Equipment, Net

Property and equipment are stated at cost. Donated property is recorded at its estimated fair market value at the date of receipt, which is treated as cost. All items greater than \$5,000 are capitalized. When assets are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in income for the period.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property and Equipment, Net (Continued)

Depreciation is calculated using the straight-line method over the estimated useful lives, ranging from 4 to 10 years.

Via Care reviews property and equipment for impairment whenever events or changes in circumstances indicate that the carrying value of the property and equipment may not be recoverable. Recoverability is measured by a comparison of the carrying amount of the asset to future net cash flows, undiscounted and without interest, expected to be generated by the asset. If such asset is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds the fair value of the asset. During the year there were no events or changes in circumstances indicating that the carrying amount of the property and equipment may not be recoverable.

Construction in progress costs have been deferred until the projects have been constructed. When the planned projects are constructed, the construction in progress costs are capitalized and depreciated over the life of the project assets.

Goodwill, Net

Via Care acquires medical practices from time to time. Goodwill in such acquisitions represents the excess of the cost of a business acquired over the net of the amounts assigned to assets acquired, including identifiable intangible assets, and liabilities assumed. Amounts assigned to goodwill and other identifiable intangible assets are based on independent appraisals or internal estimates. Goodwill is evaluated for impairment each year.

Via Care elected to implement Accounting Standards Update (ASU) No. 2019-06 for the year ended June 30, 2021. At the time of implementation the Clinic determined that goodwill would be amortized on a straight-line basis over a period of 10 years, as allowed under the provisions of ASU No. 2019-06. As of June 30, 2021, the Clinic has recorded \$23,647 in accumulated amortization of goodwill.

Gifts in Kind

Contributions of donated goods are recorded at their fair values in the period received. Contributions of donated services that create or enhance nonfinancial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation and are recorded at their fair values in the period received.

Revenue Recognition - Grants and Contracts

Revenues related to cost reimbursement-based grants and contracts to provide medical services are recorded to the extent of expenditures incurred not to exceed grant and contract award. All other grants are recognized as revenue when the award is made.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Patient Service Revenue

Via Care has agreements with third-party payors, including Medicaid and Medicare that provide for payments to Via Care at amounts different from its established rates. Payment arrangements include prospectively determined rates per encounter, negotiated rates per service provided, and discounted charges. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including retroactive adjustments under reimbursement agreements with third-party payors as final settlements are determined.

For uninsured patients that do not qualify for sliding fee adjustments, Via Care recognizes revenue on the basis of its standard rates for services provided. A significant portion of the Organization's uninsured patients will be unable or unwilling to pay for the services provided. Thus, Via Care records a provision for bad debts related to uninsured patients in the period the services are provided. Via Care also records an allowance for contractual adjustments related to third-party payers for services provided. The provision for bad debts and contractual adjustments are recorded as a component of net patient service revenue.

Income Taxes

Via Care is a nonprofit corporation, exempt from the payment of income taxes under Internal Revenue Code (IRC) Section 501(c)(3) and California Revenue and Taxation Code Section 23701(d). Accordingly, no provision has been made for income taxes. However, Via Care is subject to income taxes on any net income that is derived from a trade or business not in furtherance of the purposes for which it was granted exemption. No income tax provision has been recorded as the net income, if any, from any unrelated trade or business in the opinion of management, is not material to the financial statements taken as a whole.

Via Care follows the guidance in the income tax standard regarding the recognition and measurement of uncertain tax positions. The application of this standard has no effect on the financial statements. Via Care's tax returns are subject to review and examination by federal, state, and local authorities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

Functional Allocation of Expenses

Expenses are allocated directly or indirectly to various program and supporting activities in the statement of activities and changes in net assets and schedule of functional expenses. Expenses that can be identified with a specific program or supporting activities are allocated directly according to their natural classification. All remaining indirect costs are allocated using statistical or nonstatistical allocation methodologies.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Allocation of Costs Between Program and Support Functions

Readily identifiable costs such as salaries and wages; clinical and dental supplies; medications; laboratory fees; health fair costs, etc. are charged to one of four cost centers (Medical, Dental, Behavioral Health or Outreach and Enrollment) and then allocated to a specific grant budget or to programs based on estimates of time spent. The estimates of time spent are corroborated by semi-annual time studies. Administrative and undesigned costs are first bundled under Administration and then allocated to the cost centers on the percentage relationship of salaries and wages.

New Accounting Pronouncements - ASU 2014-09

The Financial Account Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)* effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. In June 2020, ASU No. 2020-05 was issued which deferred the effective date of this standard by one year. The Organization adopted ASU No. 2014-09 beginning on July 1, 2020 using a full retrospective approach. ASU No. 2014-09 requires organizations to exercise more judgment and recognize revenue using a five-step process. As such the standard requires an organization to recognize revenue when the organization transfers control of promised Organization sufficient quantitative and qualitative information to enable users of financial statement to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with patients. The adoption of ASU No. 2014-09 resulted in changes to the presentation of and disclosure of revenue related to uninsured and underinsured patients.

Under ASU No. 2014-09, the estimated uncollectible amounts due from patients are considered a change in estimate of the implicit price concession and are generally considered a direct reduction to patient service revenue. The Organization also assessed the impact of ASU No. 2014-09 for programs that are subject to variable consideration and concluded that accounting for these programs under ASU No.2014-09 is consistent with the historical accounting practices. Adoption of the new standard did not materially impact the financial position, results of operation, or cash flows of the Organization and there was no cumulative effect of a change in accounting principal recorded as a result of adoption.

Upcoming Accounting Standards

FASB issued ASU No. 2016-02 *Leases* (Topic 842) requiring lessees to recognize leases on the statement of financial position and disclose key information about leasing arrangements. The new standard establishes a right-of-use (ROU) model that requires a lessee to recognize a ROU asset and lease liability on the statement of financial position for all leases with a term longer than 12 months. The standard will not be effective for the Organization until the year ending June 30, 2023. Management is currently in the process of evaluating the impact.

Subsequent Events

The Organization has evaluated subsequent events through January 5, 2022, which is the date the consolidated financial statements were available to be issued.

NOTE 3 LIQUIDITY AND AVAILABILITY OF RESOURCES

Via Care's financial assets available within one year of the statement of financial position date for general expenditures are as follows:

Cash	\$ 5,217,884
Accounts Receivable	 2,029,670
Total	\$ 7,247,554

None of the financial assets are subject to donor, board, or other contractual restrictions that make them unavailable for general expenditures within one year of the statement of financial position.

Via Care has capitation contracts in place for approximately 7,000 patient lives which generate between \$100,000 to \$150,000 cash, per month.

NOTE 4 PATIENT RECEIVABLES, NET

Patient receivables are reduced for explicit and implicit price concessions. In evaluating the collectability of accounts receivable, the Organizaiton analyzes its past history and identifies trends for each of its major payor sources of revenue to estimate the appropriate implicit and explicit price concession. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the price concessions.

For receivables associated with services provided to patients who have third-party coverage, the Organization analyzes contractually due amounts and provides an explicit price concession, if necessary. For receivables associated with self-pay patients (which includes both patients without insurance who are not covered by the Organization's sliding fee discount program, and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Organization records an implicit price concession on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or provided by policy) and the amounts actually collected after all reasonable collection efforts have been exhausted is considered a change in estimate of the implicit price concession.

The components of accounts receivable are as follows:

Patient Accounts Receivable	\$ 1,518,394
Capitation - Annual Reconciliation	42,608
Grants Receivable	 468,668
Total	\$ 2,029,670

All grants are receivable in less than one year.

NOTE 5 PROPERTY AND EQUIPMENT, NET

Property and equipment at June 30, 2021 are composed of the following:.

			Accumulated		١	let Book
	Cost		Depreciation			Value
Furniture and Fixtures	\$	84,431	\$	(70,664)	\$	13,767
Leasehold Improvements		568,863		(301,323)		267,540
Equipment		524,296		(433,928)		90,368
Construction in Progress		59,692				59,692
Total	\$	1,237,282	\$	(805,915)	\$	431,367

Depreciation expense for the year ended June 30, 2021 was \$47,219.

NOTE 6 INTANGIBLE ASSETS, NET

Intangible assets are amortized over their estimated useful lives. Software is amortized over three years and contracts and patient files over seven years. Intangible assets are comprised of the following at June 30, 2021

		Ac	Accumulated		Net Book
	Cost Depreciation		preciation		Value
Contracts and Patient Files - Eastside	\$ 309,528	\$	(277,284)	\$	32,244
Contracts and Patient Files - Santa Rosa	184,000		(131,429)		52,571
Contracts and Patient Files - Dr Park	120,000		(27,143)		92,857
Electronic Health Records Software	 342,061		(232,544)		109,517
Total	\$ 955,589	\$	(668,400)	\$	287,189

Amortization expense for the year ended June 30, 2021 was \$255,798.

Future amortization is as follows:

Year Ending June 30,	 Amount		
2022	\$ 132,520		
2023	78,517		
2024	34,723		
2025	17,143		
2026	17,143		
Thereafter	 7,143		
Total	\$ 287,189		

NOTE 7 GOODWILL, NET

The Organization is carrying goodwill on its statement of financial position as a result of two practice acquisitions. The amounts are as follows:

	Eastside	Santa Rosa		Accumulated	Net Book
	Practice	Practice	Total	Amortization	Value
Goodwill	\$ 141,774	\$ 94,698	\$ 236,472	\$ (23,647)	\$ 212,825

NOTE 8 LONG-TERM DEBT

Long-term debt consists of the following:

Description

Loan from Tandem Finance for Medical Equipment, 6.756% interest rate. Monthly payments are \$975.75. The loan terminates on November 15, 2022. \$ 15,118 SBA EIDL Loan, 2.75% stated interest rate. Monthly payments are \$2,136. The loan terminates on June 4, 2050 499.010 514,128 Total Long-Term Debt Less: Current Portion 37,285 **Total Noncurrent Portion** 476,843

Loan maturities for each of the remaining two years following June 30, 2021 are as follows:

Year Ending June 30,	Amount		
2022	\$	37,285	
2023		17,007	
2024		12,742	
2025		13,096	
2026		13,461	
Thereafter		420,537	
Total	\$	514,128	

NOTE 9 GIFTS IN KIND

During the year, the organization received donations of personal protective equipment (PPE) valued at \$505,064. This PPE was consumed during the year.

NOTE 10 PENSION PLAN

The Organization maintains a defined contribution pension plan under IRS Code Section 403(b). The organization contributes on a discretionary basis. No contributions were made by the Organization for the year ended June 30, 2021.

NOTE 11 PATIENT SERVICE REVENUE

Patient service revenue is reported at the amount that reflects the consideration to which the Organization expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including health insurers and government payors), and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews, and investigations. Generally, the Organization bills the patients and third party after the services are performed. Revenue is recognized as the performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Organization. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred in relation to total expected (or actual) charges. The Organization believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients receiving primary and preventative care services.

The Organization measures the performance obligation at the commencement of an outpatient service to the point when it is no longer required to provide services to that patient, which is generally at completion of the outpatient service. Revenue for performance obligations satisfied at a point in time, pharmacy services, is generally recognized when goods are provided to our patients and the Organization does not believe it is required to provide additional goods or services related to that sale. The Organization determines the transaction price based on standard charges for goods and services provided, reduced by explicit price concessions provided to third-party payors, discounts provided to uninsured and under-insured patients in accordance with the Organization's policy and/or implicit price concessions provided to uninsured and under-insured patients. The Organization determines its estimates of explicit price concessions based on contractual agreements, its discount policy, and historical experience. The Organization determines its estimate of implicit price concessions based on its historical collection experience with this class of patients.

The Organization has agreements with third-party payors that provide for payments to the Organization at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

NOTE 11 PATIENT SERVICE REVENUE (CONTINUED)

<u>Medicare</u> – Services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Inpatient nonacute services and defined capital and medical education costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology. The Organization is reimbursed for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the Organization and audits thereof by the Medicare fiscal intermediary.

<u>Medicaid</u> – Services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology. The Organization is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Organization.

Other—The Organization has payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for reimbursement under these agreements includes discounts from established charges and prospectively determined rates.

Laws and regulations concerning government programs, including Medicare and Medicaid, are complex and subject to varying interpretation. As a result of investigations by governmental agencies, various health care organizations have received requests for information and notices regarding alleged noncompliance with those laws and regulations, which, in some instances, have resulted in organizations entering into significant settlement agreements. Compliance with such laws and regulations may also be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and potential exclusion from the related programs. There can be no assurance that regulatory authorities will not challenge the Organization's compliance with these laws and regulations, and it is not possible to determine the impact (if any) such claims or penalties would have upon the Organization. In addition, the contracts the Organization has with commercial payors also provide for retroactive audit and review of claims.

Settlements with third-party payors for retroactive revenue adjustments due to audits, reviews or investigations are considered variable consideration and are included in the determination of the estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor and the Organization's historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known (that is, new information becomes available), or as years are settled or are no longer subject to such audits, reviews, and investigations. Adjustments arising from a change in the transaction price, were not significant in 2021.

NOTE 11 PATIENT SERVICE REVENUE (CONTINUED)

Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Organization also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. Specifically, The Organization has a policy of providing care to patients who meet certain criteria under its Sliding Fee Discount Program at amounts less than its established rates. However, all patients are requested to pay a nominal fee for each visit, and no patient is denied services because of inability to pay.

The Organization estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charge by any contractual adjustments, discounts, and implicit price concessions. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change.

Additional revenue recognized due to changes in its estimates of implicit price concessions, discounts, and contractual adjustments were not considered material for the years ended June 30, 2021 and 2020. Subsequent changes that are determined to be the result of and adverse change in the patient's ability to pay are recorded as bad debt expense.

Consistent with the Organization's mission, care is provided to patients regardless of their ability to pay. Therefore, the Center has determined it has provided implicit price concessions to uninsured patients and other uninsured balances (for example, copays and deductibles). The implicit price concessions included in estimating the transaction price represents the difference between amounts billed to patients and the amounts the Organization expects to collect based on its collection history with those patients.

The Organization has determined that the nature, amount, timing and uncertainty of revenue and cash flows are affected by the following factors:

- Payors (for example, Medicare, Medicaid, managed care or other insurance, patient) have different reimbursement/payment methodologies
- · Length of patient's service
- Method of reimbursement (fee for service or capitation)
- Organization's line of business that provided the service such as medical, dental, and behavioral health visits

The Organization has elected the practical expedient allowed under FASB ASC 606-10-32-18 and does not adjust the promised amount of consideration from patients and third-party payors for the effects of a significant financing component due to the Organization's expectation that the period between the time the service is provided to a patient and the time that the patient or a third-party payor pays for that service will be one year or less. However, the Organization does, in certain instances, enter into payment agreements with patients that allows payments in excess of one year. For those cases, the financing components not deemed to be significant to the contract.

NOTE 11 PATIENT SERVICE REVENUE (CONTINUED)

Patient service revenue net of explicit allowances, discounts, and implicit price concessions recognized in the period from these major payor sources for the years ended June 30, 2021 is as follows:

Medicaid	\$ 6,621,665
Medicare	233,440
Public	236,960
Commercial Insurance	87,702
Self-Pay	64,373
Patient Service Revenue	\$ 7,244,140

NOTE 12 COMMITMENTS AND CONTINGENCIES

Obligations Under Operating Leases

On August 1,2018, the Organization entered into an operating lease with Ben Massaband for property located at 507 S. Atlantic Blvd., Los Angeles, CA. The lease is for a period of three (3) years expiring on August 31, 2028. The current monthly lease is \$8,204 and subject to 4% annual increase.

On June 1, 2020, the Organization entered into an operating lease with Ben Massaband for property located at 501 and 503 S. Atlantic Blvd., Los Angeles, CA. The lease is for a period of thirty- six (36) months expiring on May 31, 2023. The current monthly lease is \$12,000 and subject to 5% annual increase.

On September 1, 2019, the Organization signed an operating lease for 1,240 square feet of space at 280 S. Atlantic Blvd., Los Angeles, CA. The term of the lease is for three (3) years expiring August 31, 2022. The base monthly rent is \$3,229 which is subject to an annual increase of 5%.

On November 30, 2020, the Organization signed an operating lease for space at 4755 E. Cesar Chavez Boulevard, Suites A, B, C & D, Los Angeles, CA. The lease expires on October 30, 2025; the current base monthly rent is \$11,050 which is subject to an annual increase of 3%.

On December 11, 2015, the Organization entered a ten (10) year lease for 6,684 square feet at 607, 611 & 615 S. Atlantic Blvd, Los Angeles, CA. The lease expires December 10, 2025. The current base rate is \$18,738 per month and is subject to an annual increase of 3%.

On December 26, 2018, Via Care entered a five (5) year lease at 5015 E. Whittier Blvd, Los Angeles, CA The lease expires on December 31, 2023. The current monthly rent is \$4,250 and it will increase by \$50 per month in each succeeding year.

NOTE 12 COMMITMENTS AND CONTINGENCIES (CONTINUED)

Obligations Under Operating Leases (Continued)

On October 1, 2019, Via Care entered a five (5) year lease at 5017 E. Whittier Blvd, Los Angeles, CA. The lease expires on September 30, 2024. The current base is \$2,575 per month and it will increase by \$50 per month in each succeeding year.

On January 1, 2021 the Organization signed an operating lease for space at 4454-4478 Tweedy, South Gate, CA. The lease expires on March 31, 2024, the current monthly rent is \$26,525 and subject to an annual increase of 3%.

On January 1, 2021 the Organization signed an operating lease for space at 276 S. Atlantic Blvd, Los Angeles, CA. The lease expires on August 31, 20211, the current monthly rent is \$3,100 and subject to an annual increase of 5%.

Space is leased at Garfield High School on a month-to-month basis at a rate of \$1,115 per month currently.

Copiers are being leased at a rate of \$4,399 per month, water dispensing units at a rate of \$470 per month.

Future rent commitments are:

Year Ending June 30,	 Amount
2022	\$ 1,227,906
2023	1,184,360
2024	903,234
2025	571,459
2026	 464,456
Total	\$ 4,351,414

Rent expenses for the year was \$1,010,875.

Contracts and Grants

Via Care's grants and contracts are subject to inspection and audit by the appropriate governmental funding agency. The purpose is to determine whether program funds were used in accordance with their respective guidelines and regulations. The potential exists for disallowance of previously funded program costs. The ultimate liability, if any, which may result from these governmental audits cannot be reasonably estimated. Via Care has no provisions for the possible disallowance of program costs on its financial statement.

Risk Management

The Organization is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions, injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. This coverage has not changed significantly from the previous year.

NOTE 12 COMMITMENTS AND CONTINGENCIES (CONTINUED)

Litigation

Periodically, the Organization is involved in litigation and claims arising in the normal course of operations. It is the opinion of management, based on consultation with legal counsel, losses, if any, from these matters are covered by insurance or are immaterial.

Health Care Legislation and Regulation

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensures, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers.

Violation of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes that the Center is in compliance with all applicable laws and regulations. Compliance with such laws and regulations can be subject to future review and interpretation as well as regulatory actions unknown or unasserted at this time.

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) broadened the scope of certain fraud and abuse laws by adding several criminal provisions for fraud offenses that apply to all health benefit programs. HIPAA also added a prohibition against incentives intended to influence decisions by Medicare beneficiaries as to the provider from which they receive services. HIPAA was followed by the Balanced Budget Act of 1997, which created additional fraud and abuse provisions, including civil penalties for contractors.

HIPAA developed standards to protect the privacy and security of individually identifiable health related information. The privacy standards regulate the use and disclosure of health-related information, whether communicated electronically, on paper or orally.

Also, additional security regulations became mandatory on April 20, 2005, and require health care providers to implement administrative, physical, and technical practices to protect the security of individually identifiable health-related information that is maintained or transmitted electronically. Violations of HIPAA could result in civil penalties of up to \$25,000 per type of violation in each calendar year and criminal penalties of up to \$250,000 per violation. In February 2010, HIPAA requirements were updated by the Health Information Technology for Economic and Clinical Health Act (HITECH Act). Under the HITECH Act, violations of HIPAA requirements could now result in civil penalties of up to \$50,000 per incident, and up to \$1.5 million in total for each type of violation in a calendar year. These provisions of the HITECH Act became effective in September 2013.

NOTE 12 COMMITMENTS AND CONTINGENCIES (CONTINUED)

Impact of COVID-19

The World Health Organization declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the Center, COVID-19 may impact various parts of its 2021 and 2022 operations and financial results, including, but not limited to, additional costs for emergency preparedness, disease control and containment, potential shortages of healthcare personnel, or potential loss of revenue due to reductions in certain revenue streams. Management believes the Center is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of June 30, 2021.

NOTE 13 CONCENTRATION OF REVENUE SOURCES

Approximately 23% of the Organization's revenue is derived from grants from the Federal government which are renewed annually. The current level of the Organization's operations and program services may be impacted, or segments discontinued if the funding is not renewed.

NOTE 14 PAYCHECK PROTECTION PROGRAM LOAN

In April 2020, the Organization received proceeds in the amount of \$1,190,667 to fund payroll, rent, utilities, and interest on mortgages and existing debt through the Paycheck Protection Program (the PPP Loan). The PPP Loan may be forgiven by the U.S. Small Business Administration (SBA) subject to certain performance barriers, as outlined in the loan agreement and the CARES Act. The Organization recorded the full amount as long-term debt as of June 30, 2020. The SBA formally forgave the Organization's obligation under this PPP loan during the year ended June 30, 2021, as such the Organization removed the full amount of the loan from long-term debt and recorded the full amount other income. Subsequent to forgiveness the SBA may review funding eligibility and usage of funds for compliance with program requirements based on dollar thresholds and other factors. The amount of liability, if any, from potential noncompliance cannot be determined with certainty; however, management is of the opinion that any future review will not have a material adverse impact on the Organization's financial position.

NOTE 15 PROVIDER RELIEF FUNDS

Due to the Coronavirus pandemic, the U.S. Department of Health and Human Services (HHS) made available emergency relief grant funds to health care providers through the CARES Act Provider Relief Fund (PRF). The financial statements reflect revenue recognized from the Provider Relief Funds of \$543,598 for the year ended June 30, 2021. The Schedule includes Provider Relief Funds of \$150,878 that were received in Period 1 in accordance with the requirements of the compliance supplement for assistance listing number 93.498. The PRF's are subject to certain restrictions on eligible expenses or uses, reporting requirements, and will be subject to audit. Management believes the amounts have been recognized appropriately as of June 30, 2021.

NOTE 16 SUBSEQUENT EVENTS

Subsequent events were evaluated through January 5, 2022, the date the financial statements were available to be issued.

On December 14, 2021, the Organization expanded its program, behavioral, and administrative services by purchasing an additional site on 4741 and 4743 Cesar Chavez Avenue, Los Angeles, CA 90022 for \$1,400,000 for both locations. Subsequent to the year ended June 30, 2021 the Organization received a Capital Grant from HRSA for \$610,462 for the project period 09/15/2021-09/14/2024 to expand this new building. In addition, the Organization financed with Banc of CA to obtain a loan for the property at \$980,000.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Via Care Community Health Center Los Angeles, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Via Care Community Health Center (a nonprofit organization), which comprise the statement of financial position as of June 30, 2021, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated January 5, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Via Care Community Health Center's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Via Care Community Health Center's internal control. Accordingly, we do not express an opinion on the effectiveness of Via Care Community Health Center internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Via Care Community Health Center's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM, REPORT ON INTERNAL CONTROL OVER COMPLIANCE, AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors Via Care Community Health Center Los Angeles, California

Report on Compliance for Each Major Federal Program

We have audited Via Care Community Health Center's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Via Care Community Health Center's major federal programs for the year ended June 30, 2021. Via Care Community Health Center's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Via Care Community Health Center's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Via Care Community Health Center's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Via Care Community Health Center's compliance.

Opinion on Each Major Federal Program

In our opinion, Via Care Community Health Center complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of Via Care Community Health Center is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Via Care Community Health Center's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Via Care Community Health Center's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

VIA CARE COMMUNITY HEALTH CENTER NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2021

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of Via Care Community Health Center under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of 2 CFR Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the Via Care Community Health Center, it is not intended and does not present the financial position, changes in net assets or cash flows of the Via Care Community Health Center.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The Organization has not elected to use the 10% de minimis indirect cost rate as allowed under the Uniform Guidance.

NOTE 3 INDIRECT COST RATE

Via Care Community Health Center has elected to not use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4 PROVIDER RELEIF FUNDS

The financial statements reflect revenue recognized from the Provider Relief Fund of \$543,598 for the year ended June 30, 2021. The Schedule includes Provider Relief Funds of \$150,878 that were received in Period 1 in accordance with the requirements of the compliance supplement for assistance listing number 93.498.
