Corporate Compliance at Via Care

Via Care and its affiliates seek to conduct themselves in accordance with the highest level of business and community ethics and in compliance with applicable governing laws. Via Care recognizes the problems that both deliberate and accidental misconduct in the healthcare industry can pose. Via Care is committed to ensuring that it operates under the highest ethical and moral standards and that its activities comply with applicable laws.

Via Care's Compliance Program (the "Program") has been developed in accordance with applicable laws and with guidance from state and federal authorities, when available, including the Federal Sentencing Guidelines. The Program focuses on the prevention of fraud and abuse in federal, state, and private healthcare plans and conveys Via Care's commitment to integrity and being a center of profound excellence. The scope of the Program may be expanded in the future to cover other areas of compliance to which Via Care is subject. With this Program, Via Care will seek to promote full compliance with all legal duties applicable to it, foster and ensure ethical conduct, and provide guidance to each employee and agent of Via Care for his or her conduct. The procedures and Standards of Conduct, which are part of the Program, define the scope of conduct that the Program is intended to cover and should not be considered as all inclusive.
